

LakewoodAlive Blossoms Program

We are pleased to announce the expansion of our very successful beautification service designed to help YOU—our merchants—make your storefronts more attractive and inviting.

We are partnering with Lakewood's own **Lakewood Garden Center** to provide newly designed and professionally planted Earth Box planters with flowers appropriate for the sun/shade needs of your location. These Earth Box planters have built-in water reservoir that significantly reduces watering requirements. If you want what we have been doing in Downtown Lakewood, now is the chance for you to have beautiful blooms in front of your business.
